In response to the feedback on the IE 2010-2011 Report, the following bullets describe how the department will address the comments in our next assessment cycles and resulting reports.

- Learning outcomes will be developed and examined in both 2011-2012 and 2012-2013.
- Additional staff lines include student staff lines since as you noted the financial climate is one in which additional student employment opportunities will be the only realistic staff lines we can add to meet our goals; these lines will be implemented in 2011-2012 and reported on in 2012-2013.

Thank you.
